

INTRODUCING LEGACY DESERT QUARTZ

*The Legacy
Continues...*

We are excited to present the latest offering in our LEGACY line of vinyl membranes. Keeping with the theme of naturally inspired colours and textures, this new LEGACY pattern was aptly named *Desert Quartz* in a 'Name the Colour' contest held on Facebook.

The attractive new designer vinyl option is completely different from the existing LEGACY line, but offers a heavily textured pattern in neutral, crème shades that will blend well with a range of exterior colour schemes.

72 inches wide | 25 yard rolls
